

QUALITY POLICY OF SONNEN METAL LLC

Guided by the principle of providing quality services for the design and sale of mounting systems for solar panels, SONNEN METAL LLC declares its desire for consistency and steadiness to fully meet consumer needs, which fully complies with current standards, norms and rules.

This desire is intended to implement the main goal - to continuously increase the satisfaction of consumers and all interested parties.

To achieve this strategic goal, a quality management system is planning, implementing, analyzing and integrating, which takes into account the requirements of the international standard ISO 9001: 2015.

We constantly intend to:

- increase satisfaction by the activities of our company of all interested parties;
- create conditions for training and development of employees, increasing their competence; to help each employee understand his role in the quality system, consciously adhere to the requirements of existing documents and bear personal responsibility for the quality of his work;
- involve all employees in work to improve quality with the leading role of senior management;
- provide the necessary resources to achieve the strategic goals of the company;
- taking into account the important role of suppliers and partners in the activities of SONNEN METAL LLC, develop mutually beneficial relations with them.

With respect to the needs and expectations of concerned parties, we set ourselves the following priority tasks:

- expanding the range of products and design solutions, mastering the development and design of new high-tech types of structures, improving the consumer characteristics of products;
- establishing long-term partnership relations with consumers;
- increasing the pace of technical re-equipment, the incorporation of new technologies, the use of modern information systems;
- minimization of risks of the QMS processes.

The executive management of SONNEN METAL LLC declares its commitment to quality, confirms its determination to lead the process of continuous improvement of activities, constant review of the Policy and encourages each employee, regardless of his position and profession, to contribute to the solution of this task.

Through joint efforts we must ensure that the activities of SONNEN METAL LLC are an example of high quality products and services.
